

SECURITY PROGRAM

Client Portal Security Program

A complete register of the technical and organizational controls that protect client organizations, their programs, and the people they serve, described exactly as implemented, with honest limits stated plainly.

SCOPE

Client portal (lilxhub.app)

INFRASTRUCTURE

Supabase · Vercel (United States)

ENTITY

Legacy X LLC · d/b/a Luminary Impact

REVIEWED

August 2026

AT A GLANCE

Defense in depth, honestly labeled

Security here is layered: vault, encryption, screening, access control, authentication, and audit each stand on their own, and every claim states what is actually enforced in code. Nothing is described as live that is not.

40+

Controls implemented

9

Control domains

7

U.S. subprocessors, all disclosed

72h

Breach-notification commitment

Least privilege

The vault is the line

Say what is true
